OVERVIEW

The Facebook Connect Magento Extension allows user to login and connect to your store by simply logging into their Facebook account. You can configure the Facebook Link Extension Module with the Facebook account of a customer so that if he/she login's into their Facebook account and make a purchase

Features

Apart from allowing the user to login from their Facebook account, Magneto Facebook Connect has more features which are listed below:

Features for Website Visitors:

• **Like Button:** The Like button helps the visitor to share your content with their friends on Facebook. When the user clicks on the Like button a story appears in the user's friends News Feed with a link back to your website.
• **Comment Box:** Along with Like button, Comment box can also be displayed which allows the user to comment on content on your site using their Facebook profile and shows this activity to their friends in news feed.

Features for Store Admin:

• Brand promotion of your products on a global platform
• User-friendly interface
• Meets Magento programming guidelines
• Easy installation
• Requires no manual configuration
• 100% open source

Installation Steps

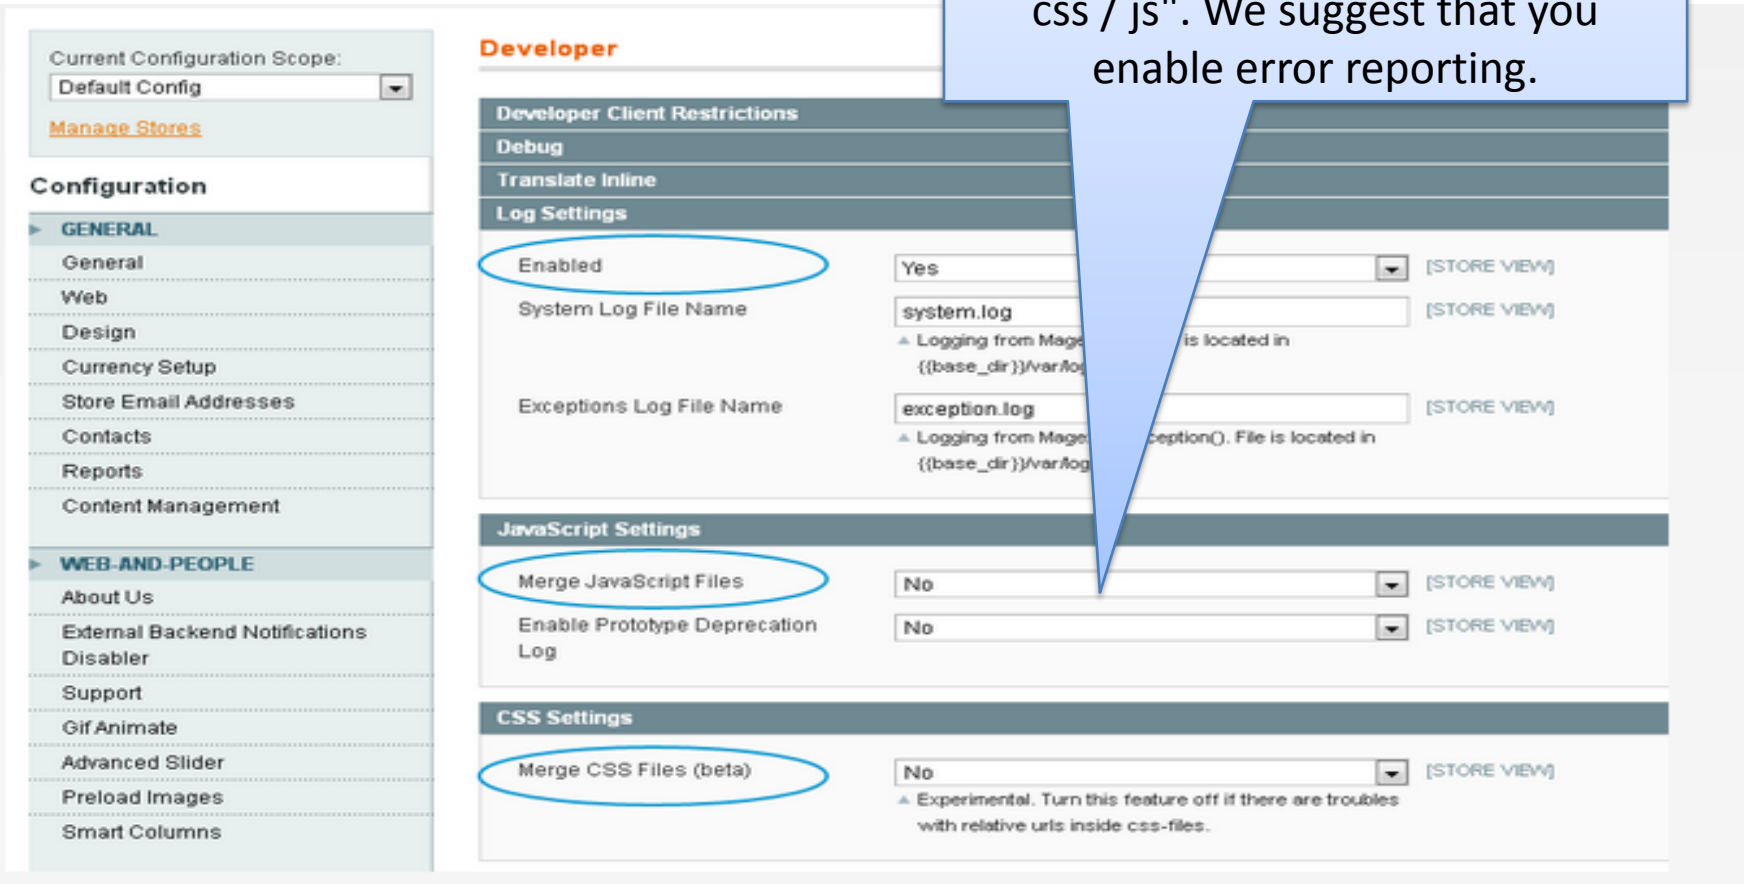
1. Clear the store cache under **var/cache** and all cookies for your store domain.

2. Disable compilation for Magento 1.4+. Log into Magento **Admin Panel and go to System → Tools → Compilation and disable the** compilation.

Installation Steps

3. Disable JS & CSS merging

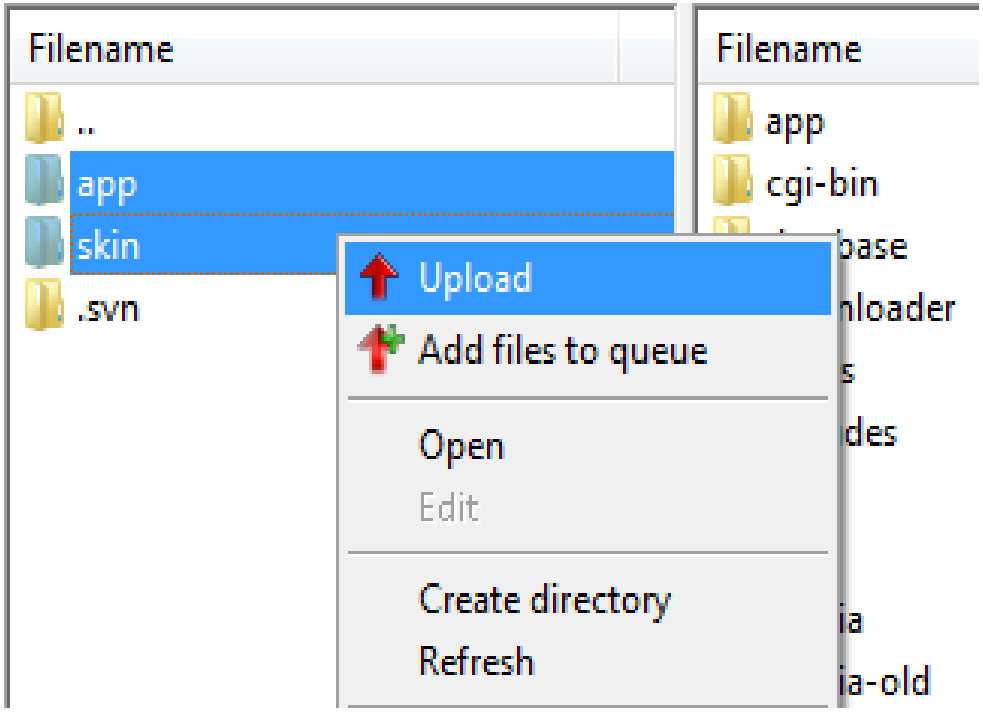
Navigate to System->Configuration->Developer Tab and disable "Merge css / js". We suggest that you enable error reporting.



Installation Steps

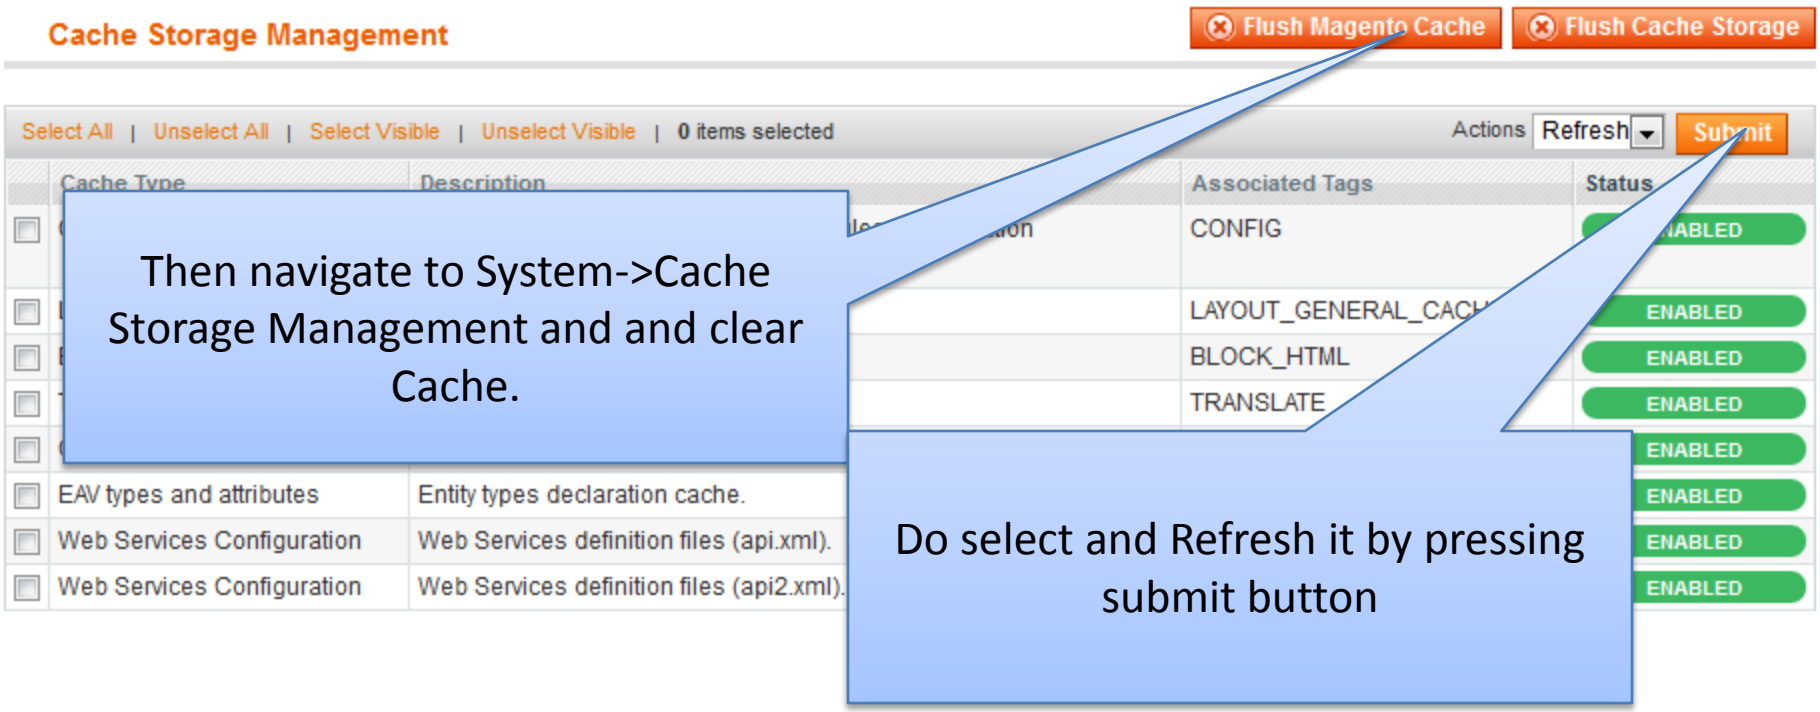
4. Upload file manually

If you use a different from default theme - be sure to rename **app/design/frontend/default/default and skin/frontend/default/**default folders to your store's values. Using your FTP client upload content to your store root.



Installation Steps

5. Clear Cache



6. Log out then log back in to your admin panel.
